OBESITY

Tackling obesity: the role of the NHS in a whole-system approach

This new report from the King's Fund finds that in recent years the gap in obesity prevalence between the most and least deprived communities has widened, leading to increases in hospital admissions. It explores the role of the NHS in tackling obesity, focusing on how the NHS can work with local partners and engage with communities to deliver targeted interventions to treat and prevent obesity.

REPRODUCTIVE HEALTH

Understanding disparities in reproductive health

In 2018 Public Health England asked the public about their experiences with reproductive health issues. Responses are not representative of the whole population so this July, PHE are running another survey so everyone gets their say.
